REASONS FOR ALLOWANCE

The notice of incomplete response dated 9/21/2007 was sent in error. Initially, the PTO believed that the claims filed in the outstanding reply were part a list of amended claims, which did not reflect previous amendments. However, the claims filed in the latest reply were not the claims of record, but a translation of the priority document.

The following is an examiner's statement of reasons for allowance:

The rejection under section 103 over Borgmeier is withdrawn since this reference fails to provide a reason to adjust the propane/oxygen molar ratio to greater than or equal to 0.5.

The prior art rejection over Borgmeier in view of DuBous II is withdrawn since Applicant's have perfected foreign priority, and consequently, antedated the Dubois II reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
